Follow the above link and fill out your information to register. Once registered you will receive and email with a link to the June Zoom.

Registration Deadline:

June 8th

Fees:

Free of Charge

June 9th Virtual Seminar!

We are excited to announce that MDUG has once again teamed up with CODUG (Central Ohio Database Users Group) and NEODBUG (Northeast Ohio Database Users Group) to sponsor a virtual user group session on Thursday, June 9th!

The June 9th Virtual MDUG session will feature the following sessions:

- Db2 SQL Performance for Application Developers
 - Presented by David Morris of Leidos
- Things About Db2 for z/OS I Wish I'd Remember When....
 - Presented by Michael Cotignola of BMC
- DB2 v13 Update
 - John Lyle of IBM

This virtual seminar will be held via Zoom and will be free of charge. As such we are not limiting our audience to current user group members. Invite a friend or coworker who may not have had the chance to attend in person in the past and let them experience what MDUG is all about! Please register by clicking the REGISTER HERE link to the left on this page and filling out your registration information. Once registered you will receive an email response with your link to the event.

On behalf of MDUG we sincerely hope everyone is staying safe and healthy and are looking forward to hearing from you in June!

Presentation Details

[David Morris \(Leidos\)](#)

David will be presenting on the following topic:

SQL Performance for Application Developers

...we will provide more details once we have them

[Michael Cotignola \(BMC\)](#)

Michael will be presenting on the following topic:

Things About Db2 for z/OS I Wish I'd Remember When....

With all the changes and enhancements made to Db2 over the years, it is getting more and more challenging to know the exact command, syntax or option to use for any given feature/function. Continuous Delivery has not made it any easier. This presentation will cover some of the more overlooked or forgotten options, commands, syntax that could prove to be invaluable in managing your Db2 environment. Intended target audience is for people new to Db2 for z/OS, application developers who may benefit from knowing more about the internals of Db2, or people like myself who just can't remember a command, syntax or option and need a refresher.

John Lyle (IBM)

John Lyle has worked for IBM at the Silicon Valley Laboratory in the Db2 organization since 1985. Joining Db2 development in 1995, he has worked in the RDS area focusing mostly on the Db2 system catalog, migration and fallback and the data definitional language (DDL) areas as well as the index manager area. He has been the lead designer and implementer of the catalog and fallback changes since V5 and has worked on numerous other development items over the years. John was the lead designer for Db2 9's Clone table function. In V8 - V11 John was the Utility lead for all of the ENFM changes that were made to the Db2 catalog and directory. In V12 John was a development leader and designer in the move to Db2's new continuous development process and also the new Online Migration capabilities.

John will be presenting on the following topic:

Db2 v13 Update

The purpose of this presentation is to introduce the new migration process for the new Db2 13 for z/OS release. The Db2 13 release migration process is significantly different from any previous Db2 release migration. The changes are, in fact, revolutionary. This presentation will detail the Db2 12 continuous delivery process, the Db2 12 to Db2 13 migration process, and go into details regarding application compatibility and the Continuous Delivery process as it relates to Db2 13. Each release brings new migration processes and challenges and this presentation will detail the nuts and bolts of the significant Db2 13 process and procedure changes.

Seminar Logistics

Day of the Seminar:

Seminar will be held online via Zoom Meetings. The link provided by MDUG at registration time will take you to the meeting webpage where you can join the Zoom. If you have not used Zoom in the past, you may need to accept the Zoom add-on and allow a small installer to run. Once in the meeting you will have to connect to the audio, either using your PC audio or calling in by phone. Instructions for both will be provided in the audio area of the Zoom.

We ask that you mute your microphone for the majority of the session to avoid background noise over the speakers. Questions can be entered via the chat feature throughout the seminar and the speakers will stop at designated times to respond. At the end of the three sessions, there will be a group Q & A facilitated by Bill Moran of BMC where open discussion can be held verbally on a variety of topics.

Presentation Handouts:

Seminar presentations will be made be available in soft copy format prior to the seminar and will be posted on the MDUG web site at www.mdug.org as they are received by the MDUG Board. Speakers will not be bringing hard copies to the seminar. Please check the web site for the presentations prior to the seminar.

Presentations for past seminars are available online at: www.mdug.org under the “Presentations” section.

Registration:

You can register yourself by clicking the Registration Link and filling out your information. Once registered, you will receive an email with your link to the Zoom meeting. Registration will be open until end of day on Wednesday, June 8th.

MDUG Membership:

Membership details for a standard year membership are posted on the web site: www.mdug.org. Due to the constantly changing status of COVID-19, membership handling for the 2020 and 2021 years is being reviewed and details about future in-person meetings are still to be determined. MDUG will relay any pertinent membership information to our members as soon as decisions are made.

Plans for 2022:

We are still working out logistics for 2022 but rest assured we will be planning several seminars, either virtual or in person!

Typical Annual Membership Fees (to be adjusted once in-person seminars resume)

Individual - \$140

Shared - \$180

Corporate - \$540

Vendor - \$540

Meeting - \$60

MDUG is an affiliate of IDUG (international Db2 User Group), and is chartered under the State of Michigan. It promotes the awareness of Db2 in solving business problems by providing a non-profit forum for presenting new functionality, features, ideas, and usage of Db2. This forum is used for communications among Db2 users in the Southeastern Michigan area, as well as bringing together others throughout the state.
